6. AGREEMENT WITH GOODYEAR POLICE DEPARTMENT FOR PARTICIPATION WITH MCNNET

Approve the Agreement between the Maricopa County Sheriff's Office and the Goodyear Police Department to reimburse \$11,000 for overtime expenses for the Officer assigned to the Maricopa County Neighborhood Narcotics Enforcement Team (MCNNET). The Sheriff's Office indirect cost rate for FY 2009 is 12.2%. The unrecoverable indirect costs are estimated to be \$1,342. The term for this Agreement is July 1, 2008 through June 30, 2009.

Maricopa County Juvenile Probation is the administrating agency for the MCNNET grant, funded through the Bureau of Justice Assistance, which was approved by the Board of Supervisors on July 23, 2008 (C-20-09-006-G-00). These efforts reduce violent crime within the unincorporated areas of the County and west valley communities. (C-50-09-010-3-00)

7. COST REIMBURSEMENT AGREEMENT WITH THE FEDERAL BUREAU OF INVESTIGATION--MORTGAGE FRAUD TASK FORCE

Approve the Cost Reimbursement Agreement between the Maricopa Sheriff's Office and the Federal Bureau of Investigation (FBI) and acceptance of up to \$15,855 for participation in the Mortgage Fraud Task Force. This Agreement will become effective upon signatures of the parties and may be terminated at any time upon mutual consent, or unilaterally upon written notice from the terminating party to the other party at least 30 days prior to the termination date. The Sheriff's indirect cost rate for FY2009 is 12.2%, the unrecoverable indirect costs are estimated to be \$1,934.31. The FBI will notify the Sheriff's Office of the applicable annual limits prior to October 1st each year. Also approve an increase to the Sheriff's Office grant fund (251) revenue and expenditure appropriations for FY 2008-09 not-to-exceed by \$15,855. These revenues are not "local revenues" for the purpose of the constitutional expenditure limitation, and therefore expenditure of the funds is not prohibited by the budget law. This budget adjustment does not alter the budget constraining the expenditure of local revenues duly adopted by the Board pursuant to A.R.S. 42-17105.

Approval of this item will allow the Sheriff's Office to recover overtime expenses incurred while participating in the FBI Mortgage Fraud Task Force (MFTF). MFTF is a joint cooperative effort among the FBI and local law enforcement agencies creating an efficient and cohesive unit capable of detecting, investigating and prosecuting organized groups and individuals involved in Federal/State/Local financial crimes. Functional equipment from the original command post will be transferred to the replacement command post. When the transfer is complete, vehicle 45604 will be removed from the fleet. There will be no additional cost to the Sheriff's Office or the County. (C-50-06-516-3-03)

14. TRANSFER EXPENDITURE APPROPRIATION FOR EVIDENCE PRESENTATION SYSTEMS

Pursuant to A.R.S. §42-17106, transfer expenditure appropriation in the amount of \$269,118 from the Non-Departmental (470) Non-Departmental Grants Fund (249) Non-Recurring (0001) Potential Expenditures from Fund Balance line to Justice Courts (240) Justice Courts Judicial Enhancement Fund (204) Non-Recurring (0001). Also decrease the revenue appropriation in the Non-Departmental (470) Non-Departmental Grants Fund (249) Non-Recurring (0001) Potential Expenditures from Fund Balance line by \$269,118. Approval of this action will support one-time expenditures to implement the Evidence Presentation System in the Justice Courts.

According to the Justice Courts' Strategic Plan, "A recently completed analysis looking at the long-term trends of growth in court filings and revenue completed by Justice Court Administration indicated that filings have increased at an annual rate of 2.4% over the eighteen year period from Fiscal Year 1988 through Fiscal Year 2006. The aggregate increase in filings over that period was 44%. Increases in case filings and litigant appearances in the Maricopa County Justice Courts call for new and effective ways to convey both statutory and procedurally instructive information to citizens. The courts, mindful of their Vision Statement "to provide community-based, user-friendly, efficient and professional justice" also see the need to enhance efficiencies in the conduct of trials and other courtroom appearances. New applications for technology in the courtroom can assist in the conveyance of information and in the conduct of court trials. The Maricopa County Justice Courts wish to purchase Evidence Presentation Systems for 17 courtrooms (total cost \$115,730) and four Video/Electronic Presentation Evidence Carts (individual cost of \$13,240, total cost \$52,959) for each regional facility (which would be shared by the co-located courts). Contractor labor and travel costs are calculated at \$85,115 and \$1,650, respectively. Sales tax calculated at \$13,664. Total costs of \$269,118. (C-24-09-001-2-00)

The Juvenile Probation Department in Maricopa County has participated in the Family Counseling Program provided by the Arizona State Legislature, A.R.S. 8-261 through 8-265 for the past 35 years. The objective of the program is to divert delinquent or incorrigible offenders from the court process by providing counseling until the family can mobilize its own resources for meeting its problems. In addition, the counseling is provided to reduce referral frequency to the Juvenile Probation Department. The allocation to Maricopa County for FY 2008-09 is \$366,050 which will be retained by the Administrative Office of the Supreme Court. A 4 to 1 ratio County match is required in the amount of \$91,513 and is included in the Juvenile Probation Department's FY 2008-09 budget. Approve a Type 2 Water Right Sublease Agreement between Aspen Liberty, L.L.C. and the Liberty Park Improvement District, a county improvement district, through Maricopa County Superintendent of Streets Office, for the purpose of providing a temporary legal water right lease in the name of the Liberty Park Improvement District, in accordance with Arizona Department of Water Resources' (ADWR) requirements for issuance of water delivery

service rights for new providers. This Agreement is non-financial and is effective from August 20, 2008 until December 31, 2010.

The district was established December 15, 2007 and is located in the vicinity of Jackrabbit Trail and MC85. As part of the ADWR's Assured Water Supply program, all new subdivisions within the Phoenix area must prove a 100-year legal water supply. For Liberty Park, the water provider is required to obtain a "service area right" from ADWR. Pursuant to ADWR policy, a new provider must obtain a temporary water right before ADWR will issue a new service area right. To comply with this requirement, Owner/Developer has leased a water right to be subleased to the improvement district until water service is commenced at Liberty Park and ADWR issues a new service area right to the improvement district. The water right sublease does not obligate the improvement district to make any financial payments. All payment obligations under the water right lease remain with the developer. If for some reason, the improvement district does not ultimately serve water to the subdivision or the developer's prime lease terminates, the result will be that the sublease will automatically terminate and ADWR will not issue the improvement district any service area rights. There will be no on-going responsibility under the sublease for the improvement district. Supervisor District No. 4 (C-91-09-020-3-00)

F-2. INTERGOVERNMENTAL AGREEMENT FOR AGUA FRIA BOULEVARD (HAPPY VALLEY ROAD) SCOUR PROTECTION PROJECT

Approve Inter- Governmental Agreement FCD 2008A007 with the Maricopa County Department of Transportation (MCDOT) to cost share the preliminary engineering design (Project Design Concept) of the Agua Fria Boulevard (Happy Valley Road) Scour Protection Project.

Following construction of the Agua Fria Boulevard bridge, MCDOT discovered potential flaws in three bridge piers which could threaten the integrity of the bridge when subjected to flood scour. In response, MCDOT designed riprap pier scour protection (est. cost: \$500,000). The Agua Fria Watercourse Master Plan – Channelization Alternative identifies a drop/grade control structure at the Agua Fria Boulevard bridge (est. cost: \$2,000,000). Recognizing the drop/grade control structure would render their scour protection a "throw away," MCDOT submitted the drop/grade control structure project to the Districts FY 2008 CIP Prioritization Procedure, and the project was recommended. MCDOT is also developing a Design Concept Report for the proposed Deer Valley Road bridge, about 2 miles downstream of Agua Fria Boulevard. The Board of Directors' adoption of the Channelization Alternative in July 2005 (Agenda Item: C-69-05-121-6-00) authorized and directed the Chief Engineer and General Manager to negotiate agreements to implement portions of the Channelization Alternative. The agreement allows MCDOT and FCD to cost share a design study for the drop/grade control structure and related channelization between Agua Fria Boulevard and Deer Valley Road. The study will refine the design concept and cost estimate of the drop/grade control structure to protect the Agua Fria Boulevard bridge, establish the northern end of a channel segment at a logical starting point and facilitate economical construction of the Deer Valley Road bridge. This Project is located in District 4. (C-69-09-005-3-00)

F-3. SELL EXCESS PARCELS

Authorize the Flood Control District of Maricopa County (District) to sell excess parcels beginning in FY 2008-09. The District will utilize its Disposition Program, continuing to evaluate and analyze the best potential of leasing or sales of all real property based on prevailing market conditions. The sale price will be market value, to be determined by a certified licensed appraiser, either at the start point of an oral auction, or, in the event of a sale to a municipality, at market value without an auction. If an auction takes place, District staff will sell the parcel in compliance with A.R.S. §9-402, which mandates that an invitation for bid be published for the sale of all real property. Parcels APN 171-53-027 (FP032) and APN 503-36-013G (FP024)

These two properties were acquired through the Floodprone Properties Acquisition Program (FPAP) by the District in 2005. Portions of both vacant parcels are located in floodplains and floodways that will impact any improvements that are placed on them. Prospective buyers of the properties have been advised to seek input from the appropriate governmental agencies about the possibility of constructing improvements on the subject properties. Disposition of both properties will relieve the District of landscaping maintenance and dust control responsibilities. Property located in Supervisorial Districts 3 and 4. APN 171-53-027 (FP032) – Vacant land totaling 0.39 +/- acres APN 503-36-013G (FP024) – Vacant land totaling 4.3 +/- acres. (C-69-09-004-8-00)

F-4. RESOLUTION FOR THE DURANGO REGIONAL CONVEYANCE CHANNEL-75TH TO 107TH AVENUES

Adopt Resolution FCD2008R007 for the Durango Regional Conveyance Channel, from 75th Avenue to 107th Avenue (the Project). The Resolution authorizes and directs the Chief Engineer and General Manager of the Flood Control District of Maricopa County (District) to develop and negotiate Intergovernmental Agreements (IGAs) and Agreements for cost sharing, design, construction, construction management, rights-of-way acquisition, and operations and maintenance; to perform designs; to acquire rights-of-way; and to program Project funding in the District's Capital Improvement Program, subject to the approval of the Board.

The Durango Area Drainage Master Plan evaluated and developed solutions to mitigate flooding hazards in the Durango drainage area. This study recommended a regional channel and basin (the Durango Regional Conveyance Channel) near the Buckeye Feeder Tailwater Ditch, to intercept storm water flows and provide an outfall to the Agua Fria River. This portion of the Durango Regional Conveyance Channel is located between 75th Avenue and 107th Avenue, and between Lower Buckeye Road and Broadway Road. Upon full implementation of the Durango Regional Conveyance Channel, the proposed Project will reduce the flooding hazards and provide for 100-year outfall in the Durango drainage area. The Project was requested by the City of Avondale under the FY 2002/2003 Capital Improvement Program Prioritization Procedure, and was recommended by the Flood Control Advisory Board (FCAB) for inclusion in the District's Capital Improvement Program. On June 26, 2008 the Resolution was endorsed by the FCAB. This agenda item impacts Supervisorial District 5. (C-69-09-006-6-00)

F-5. IGA WITH THE TOWN OF QUEEN CREEK FOR SONOQUI WASH CHANNELIZATION PHASE II

Approve Intergovernmental Agreement (IGA) FCD 2008A008, between the Flood Control District of Maricopa County and the Town of Queen Creek for the cost-sharing of design and utility relocation for the Sonoqui Wash Channelization, Phase II [Project (#480)]. The design and utility relocation for the Project is estimated to cost \$1,200,000. The District and the Town will be sharing this cost equally (50/50).

The Board of Directors of the District approved Resolution FCD 2001R001 on March 21, 2001 (C-69-01-061-6-00), which authorized the District to enter into IGAs with the stakeholders for the Sonoqui Wash Channelization Project. The Phase I of the Sonoqui Wash Channelization from its confluence with Queen Creek Wash to Chandler Heights Road was recently constructed by the District in cooperation with Towns of Gilbert and Queen Creek. The Phase II of the Sonoqui Wash Channelization includes a similar channel starting from Chandler Heights Road southeast to Riggs Road and from Hawes Road east to Crismon Road. The total length of the Project will be approximately 3.5 miles. The Project is anticipated to be designed as an earthen channel with meandering side slopes (4:1 to 8:1), 50' bottom width and depth ranging from 5' to 8' and multi-use features such as an equestrian trail and pedestrian trails. The existing wash corridor contains approximately 71 acres of land and 68 properties within a Federal Emergency Management Agency (FEMA) designated floodplain. Once the Project is constructed, all of the surrounding land will be out of the floodplain. It is anticipated that the Project will be operated and maintained by the Town once it is completed. This Agenda Item impacts Supervisorial District 1. (C-69-09-008-3-00)

F-6. AMENDMENT TO AGREEMENT WITH U.S. DEPARTMENT OF INTERIOR BUREAU OF RECLAMATION - EL RIO EDUCATION RESEARCH AND DEVELOPMENT PROJECT

Approve Amendment No. 1 to an Agreement between U.S. Department of Interior Bureau of Reclamation (#05FC320380) and Maricopa County through the Flood Control District in the not-to-exceed amount of \$35,000. The purpose of this amendment is to reflect an increase of Reclamation's direct project contribution from \$202,526 to \$237,526. This amendment is effective from September 1, 2008 to September 30, 2010. All other terms and conditions of the Agreement remain in full force and effect.

Salt cedar, also known as tamarisk, is an invasive exotic species growing throughout the Gila River in the El Rio Watercourse Master Plan (El Rio WCMP) study area. Removing salt cedar from the Gila River could improve the conveyance capacity for storm water and reduce the size of the current 100-year floodplain. Removal of salt cedar or other vegetation within Waters of the United States (WUS) is considered a regulated activity and requires a Clean Water Act (CWA) Section 404 permit. Although salt cedar can hinder flood flows, the salt cedar stands provide food and cover for insects, birds, mammals and reptiles. Therefore, removing salt cedar is an environmental impact that requires mitigation in accordance with the CWA Section 404 permit. Replacing the removed salt cedar community with vegetation that is more hydraulically efficient and ecologically diverse would be appropriate and beneficial mitigation. Thus, the purpose of the El Rio Educational Research and Development Project (Project) is to establish effective techniques to replace salt cedar with vegetation that improves flood conveyance and biological diversity within the Gila River. The Project's results will help the District with its federal and state permits for other flood control projects identified in the El Rio Study. The Project has ancillary benefits including passive recreation and educational opportunities pertaining to floodplain management, river mechanics, and plant, wildlife, and river ecology. Resolution FCD 2005R002 was adopted by the Board on April 20, 2005 (C-69-05-103-6-00) for entering into Cooperative Agreements with Reclamation. The Project is to be funded as a cost-

share project between Reclamation and the District. Reclamation will fund a portion of the construction and the design. The District will fund the planning, design, monitoring, and a portion of the construction of the project. Nearly all of the District's planning and design tasks and costs coincided with the planning efforts and costs of the El Rio WCMP. The modification reflects an increase of Reclamations direct project contribution from \$202,526 to \$237,526, which will be transferred to the District for the project construction. The District's direct project cost for FY 2008-09 is estimated to be \$100,000. (C-69-05-132-3-03)

F-7. AGREEMENT WITH MARICOPA COUNTY PARKS AND RECREATION DEPARTMENT FOR CONCESSION SITE

Approve Agreement 2008G002, for Non-Disturbance and Attornment, Agreement between Maricopa County, acting through its Parks and Recreation Department, and the Flood Control District of Maricopa County.

The County and District entered into a Joint Use Agreement (#81001) dated September 8, 1981, as amended by Amendment No. 1 (CS 931287) dated June 29, 1993, Amendment No. 2 (C-69-99-091-1-00) dated May 19, 1999, and Amendment No. 3 (C-69-99-091-0-01) dated June 7, 2006. Pursuant to authority granted to the County in the Joint Use Agreement, the County desires to enter into a Use Management Agreement in favor of Concessionaire (the "Use Agreement"), with a primary term of 25 years (beginning October 1, 2008 through September 30, 2033) and a renewal option for an additional 25 years providing, among other matters, for the construction, development and operation of a multi-phase waterpark and recreational facility on a parcel of land covered by the Joint Use Agreement containing approximately 57 acres. To induce Concessionaire to enter into the Use Agreement and undertake the investments contemplated therein, the District has agreed not to disturb the rights of Concessionaire under the Use Agreement so long as Concessionaire is in compliance with its obligations thereunder, except as provided in Section 4 of this Agreement. A corresponding agenda item is found under Parks and Recreation under item C-30-09-005-3-00. (C-69-09-007-8-00)

F-8. CHANGE ORDER FOR CONTRACT WITH AMES CONSTRUCTION, INC. - WHITE TANKS FLOOD RETARDING STRUCTURE REMEDIATION

Approve Change Order No. 16, in the amount of \$658,921.25 to Flood Control District of Maricopa County (District) Contract FCD 2004C017 – White Tanks Flood Retarding Structure (FRS) No. 3 Remediation Phase 1 (Project [#4701]), with Ames Construction, Inc. (Contractor). Change Order No. 16 is the final close-out change for this contract and is required to address compensating the Contractor for the final agreed quantity of Soil Cement installed and the associated increase in imported aggregate; for an agreed split of the excessive quality control costs; for additional Time and Materials charges for silt fence installation and repair; for the balancing of the final bid quantity overrun and under-run; and for a thirty day extension of the contract time to September 20, 2008.

On November 17, 2004 (Agenda C-69-05-064-5-00), the Board authorized the District to issue an Invitation for Bids (IFB) and award a contract for the Project to the lowest responsible bidder, if the bid is not more than 10% greater than the engineer's estimate. The District issued the authorized IFB and received bids on September 20, 2005 from two bidders. Ames Construction, Inc. (Contractor) submitted the lowest responsible bid in the amount of \$9,498,370.00 and the consulting engineer's estimate was \$9,480,527.41. The Project contract was executed by the Chairman of the Board and Clerk of the Board on October 18, 2005. The Contractor was to complete the contract by August 29, 2006 (i.e. 315 calendar days). Since execution of the contract, a total of sixteen (16) change orders (including the proposed No. 16) have been initiated which have increased the total contract

amount from \$9,498,370.00 to \$14,003,386.14, an increase of \$4,505,016.14 (+47.43%) and extending the contract completion by 753 days to September 20, 2008. (C-69-09-009-5-00)
